Local Government Annual Solid Waste and Materials Management Report

Completion and submission of this online report will fulfill the annual reporting mandate to the state as required by G.S. 130A-309.09A.

Instructions

Requirement

Each North Carolina county and municipality is required to complete this report annually. Completion and submission of this online report will fulfill the annual reporting mandate to the state as required by G.S. 130A-309.09A.

- Failure to complete and submit this report could result in the local government being excluded from distributions of Solid Waste Disposal Tax Proceeds and other Department of Environmental Quality grants.
- This report must be completed no later than September 1, 2024.

Instructions

- This report is web-based and does not require any additional programs to use.
- To get started, please click 'Next' at the bottom of this page.
- The report allows you click through pages using 'Next' and 'Previous' at the bottom of each page. Or you can toggle between Parts using the tabs at the top.
- Complete the report by entering responses in the appropriate fields.
  - Depending on answers, you may not be asked to address all sections of the report.
  - Some questions with a 'yes' response will expand to ask follow-up questions.
- You can save your progress on the report by clicking 'Save a Draft' at the bottom of any page. The webpage will prompt you for your email address. A link will be mailed to the email address you provide. Click the link to continue entering data into the report.
  Please note: the report is not recoverable if the email address is incorrect.
- When complete, click the 'Submit' button on the last page.
  - An electronic copy of the report will be automatically forwarded to the Division of Environmental Assistance and Customer Service (DEACS).
  - A pdf copy of the submitted report will be emailed to you.
- DEACS reviews each report and may contact you with questions or clarifications. Once the review process is complete, you will receive an email notification with the final approved version of the report attached as a pdf. Please note the final report may be modified from your original submittal.

Helpful Information

- View your annual report from last year or previous years.
- See Frequently Asked Questions (FAQ) about this report.
- Watch last year's recorded training video about this report. The questions have not changed since last year so the same instructions apply.
- You may download a blank pdf of the report to use for gathering data. However, you must complete the online report as your official submission.
- If you need assistance completing this report, please feel free to contact one of the following DEACS staff members:
  - Elise Traywick: elise.traywick@deq.nc.gov or (919) 707-8135
  - Alex Miller: alex.miller@deq.nc.gov or (919) 707- 8190

Solid Waste and Recycling Staff

How many full-time equivalent (FTE) employees are dedicated to recycling operations? (?)

Recycling operations can include collections, logistics, processing, tagging, enforcement, education, or customer service concerning recycling, not garbage.

75.00

Did your local government have a Recycling Coordinator or similar position for FY23-24?

○ Yes ◉ **No**

Did your local government have a Solid Waste Director or similar position for FY23-24?

◉ **Yes** ○ No

☑ **Contact info is same as Person Completing This Report**

Jesse D. Troublefield Jr.

Title
Solid Waste Manager

Email
jesse.troublefield@carync.gov

Phone Number
9194622069

Did your local government have dedicated or part-time Solid Waste Enforcement Staff for FY23-24?

○ Yes ◉ **No**

Did your local government have solid waste ordinances in place addressing any of the following during FY23-24?

- ☐ Disposal Bans
- ☐ Recycling Requirements
- ☐ Littering
- ☐ Construction & Demolition Debris
- ☑ **Illegal Dumping**
- ☐ Other

Did your local government provide, contract or arrange for any solid waste services in FY 23-24? *

Solid waste services include picking up, collecting, or managing solid waste (garbage), recycling, or yard waste.

◉ **Yes** ○ No

Note: If you select "No", the form will automatically skip all solid waste and recycling sections and you can proceed to Part 9 Disaster Planning.

1. Government Buildings

Waste Reduction Programs at Government Buildings

1.1 - Was recycling offered at your local government's public buildings in FY 23-24?

◉ **Yes** ○ No

1.2 - Did your local government have a program or policy encouraging or requiring the purchase of products with recycled content in FY 23-24?

○ Yes ◉ **No**

1.3 - Was there a program to collect and recycle spent fluorescent lights generated from your local government's public buildings in FY 23-24?

◉ **Yes** ○ No

2A. Recycling Programs

Source Reduction / Reuse

2A.1 - Did your local government promote home composting? (?)

◉ **Yes** ○ No

Please check all home composting activities that apply:

- [x] **Education and/or Kitchen Countertop Collectors Available**
- [x] **Compost Demonstration Site(s)**
- [x] **Home Compost Bin Sales or Distributions**

Number of Home Compost Bins distributed:

191

2A.2 - Did your local government promote source reduction efforts? (?)

(●) **Yes** ( ) No

Please check all source reduction programs that apply:

- [x] **Junk Mail Reduction**
- [x] **Single Use Plastics Reduction**
- [x] **Food Waste Reduction**
- [x] **Promoting Reuse and Donation**
- [ ] Other

2A.3 - Did your local government offer a waste exchange or reuse program?

( ) Yes (●) **No**

Public Recycling Services

2A.4 - Which of the following best describes your recycling program for the period July 1, 2023 through June 30, 2024? Choose ONE option that best applies. *

(●) **My local government DID operate or contract for a recycling program.**

( ) My local government DID NOT operate or contract for a recycling program BUT DID participate in a recycling program sponsored by another local government. (Please answer follow-up question below.)

( ) My local government DID NOT operate, contract or participate in a recycling program.

Curbside Recycling Program

2A.5 - Did your government operate or contract for a Curbside Recycling Program?

(●) **Yes** ( ) No

Who collected the recyclable materials for your local government's curbside recycling program?

(●) **Local government employees**

( ) Private contractor*

( ) Franchised hauler**

( ) Other (please specify)

*A PRIVATE CONTRACTOR has a formal agreement with a local government for the provision of specified solid waste services at a certain price for a certain length of time and is the exclusive service provider.

**A FRANCHISED HAULER has a formal agreement with a local government for the provision of services awarded through competitive procurement. In contrast to contracted collection, local governments do not pay franchised haulers for providing services.

Total number of households in your jurisdiction:

55,000

Number of households that receive curbside recycling collection:

42,000

Number of households that regularly participate in the curbside recycling program (estimate is fine): (?)

What sector(s) of your community was served by the curbside recycling program?

- [x] **Residential**
- [x] **Commercial**
- [ ] Industrial

Please indicate the number of commercial and industrial accounts served:

393

How frequently were the curbside recyclables collected?

( ) Once a week

(●) **Every other week / biweekly**

( ) Other

Please select the collection containers used: (?)

- [x] **Bins**
- [ ] Blue bags
- [x] **Roll-out carts**

Please select the method of recycling collection: (?)

- (●) **Single-stream / commingled**
- ( ) Dual stream
- ( ) All materials collected separately
- ( ) Other (please specify)

How do residents enroll in curbside recycling service?

- ( ) Residents must sign up
- (●) **Everyone is automatically included**

Drop-off Recycling Program

2A.6 - Did your government operate or contract for a Drop-off Recycling Program? (?)

(●) **Yes** ( ) No

Who hauls the recyclable materials from your local government's drop-off sites?

- ( ) Local government employees
- (●) **Private contractor**
- ( ) Other (please specify)

Name of private contractor

GFL "Green For Life"

How were recyclables collected at your drop-off recycling site(s)? (?)

- (●) **Single-stream / Commingled**
- ( ) Dual-stream
- ( ) All materials collected separately
- ( ) Other (please specify)

How many households were served by your drop-off recycling program? (?)

55,000

What sector(s) of your community were served by the drop-off recycling program?

[x] **Residential** [ ] Commercial [ ] Industrial

How many drop-off recycling locations did you provide?

1

How many of these locations were staffed with attendants?

(●) **All** ( ) None ( ) Some

Electronics Recycling Program

2A.7 - Did your community operate or contract for an electronics recycling program in FY 23-24?

(●) **Yes** ( ) No

Please indicate the type of electronics recycling program your government offered.

- [x] **Permanent - Curbside Collection**
- [x] **Permanent - Drop-Off**
- [ ] Scheduled Collection Day or Event
- [ ] Part of HHW Program

Is curbside collection of electronics:

(●) **By appointment** ( ) Unscheduled

How many collection sites accept electronics for recycling?

1

Did your electronics recycling program collect or accept televisions from:

[x] **Residences** [ ] Businesses

Did your electronics recycling program collect or accept computer equipment from:

[x] **Residences** [ ] Businesses

Did your local government receive Electronics Management Funds from DEQ in February 2024? (?)

◉ **Yes** ○ No

Electronics Management Fund balance as of July 1, 2023:

$

Electronics Management Funds received from DEQ during FY 23-24 (Feb 2024 distribution):

$

Electronics Management Funds spent during FY 23-24:

$

Electronics Management Fund balance as of June 30, 2024:

$

Explain how Electronics Management Funds were used during FY 23-24: (?)

While the Town does receive the funds directly for the State, we do receive funds via Wake County, because we operate our own program. These funds are used for the transportation and processing of electronics through American Greenz.

Total spent on electronics recycling program in FY 23-24 (including Electronics Management Funds if applicable):

$

Name of electronics recycler(s) used during FY 23-24:

American Greenz

*If you are a municipality and delivered electronics to the County, please **do not** include tons in Part 2B. Recycling Tons. These tons will be reported by the County.*

Does the electronics recycler(s) have either the e-Steward or R2 certification?

◉ **Yes** ○ No

Other Public Recycling Programs

List only programs operated or contracted for by your local government. The tonnage of any materials collected by the following programs should be listed in the "Other Tons" column in Part 2Becycling Tons IF you track the tonnage separate from normal curbside or drop-off programs.

2A.8 - Did your local government provide recycling services at multifamily properties? (?)

◉ **Yes** ○ No

Is multifamily recycling collected using:

- [x] **Carts**
- [ ] Dumpsters
- [x] **Other** 18 gallon bins

Please provide the number of multifamily properties or accounts served: (?)

1,875

Please provide or estimate the number of multifamily units served: (?)

2A.9 - Did your local government provide a separate recycling collection service (e.g., dumpster service) for commercial and/or industrial customers?

○ Yes ◉ **No**

2A.10 - Did your local government provide recycling services to Alcoholic Beverage Commission permit holders?

◉ **Yes** ○ No

What type of service was provided to ABC permit holders?

- [x] **On-site recycling collection**
- [ ] Public drop-off recycling sites available for ABC permit holders to use

Please estimate the # of ABC accounts served:

10

2A.11 - Does your local government operate a program to recycle Construction and Demolition materials?

○ Yes ◉ **No**

2A.12 - Please identify all Away From Home Recycling programs operated by your government during FY23-24.

- [x] **Public Parks Recycling Program**
- [x] **Athletic Field /Venue Recycling Program**
- [x] **Pedestrian Recycling Program**
- [x] **Recycling Service for Special Events / Festivals**

2A.13 - Please identify all "Other" recycling programs or services operated by your government during FY23-24.

- [ ] Public School Recycling Program
- [x] **Scheduled Collection Drives (e.g., hard-to-recycle event, document shredding)**
- [ ] Lend-a-Bin Program
- [ ] Other (please specify)

2A.14 - Did your local government collect any of the following "Other" materials for recycling?

Check all that apply and if possible indicate tonnages in "Other Recycling Tonnage" section in Part 2B. Recycling Tons. Do not include materials covered in other parts of the report (e.g., yard waste, tires, HHW, used oil, batteries or other specialty wastes).

- [x] **Food Waste Drop-Off**
- [ ] Food Waste Curbside Collection
- [ ] Oyster Shells
- [ ] Textiles/Clothing
- [ ] Plastic Bags and Film
- [ ] Bulky Rigid Plastics (toys, buckets, furniture)
- [ ] Styrofoam
- [ ] Other (please specify)

You checked Food Waste (drop-off or curbside) above; was the program:

- [x] **Permanent**
- [ ] Pilot
- [ ] Other *(If you have both drop-off and curbside, differentiate here if needed)

Please indicate where you took food waste for processing:

CompostNow picks up the food waste for our drop-off site and hauls to Brooks Contractor in Goldston, NC.

2B. Recycling Tons

Enter data below for all recycling programs operated or contracted for by your local government. Provide tonnages (or estimates) for each material collected for the period July 1, 2023 through June 30, 2024.

If you need to explain any of the tonnage recorded below, please do so in Part 10. Comments.

*** If your recycling is collected commingled but you have a detailed breakdown from your MRF and want to report individual material tonnages, click here**

- [ ] Yes, I collect commingled but want to report separate

Commingled Recycling Tonnage

Commingled recycling, also known as single-stream recycling or mixed recycling, is a system in which some or all household recyclables (plastic, metal, paper, cardboard, glass) are collected together.

	Curbside Tons (?)	Drop-off Tons (?)	Other Tons (?)	Total Tons
Commingled tons	9,876.96	861.93		10,738.89

Which recyclables are included in the Commingled tons reported above?

- [x] **Aluminum Cans**
- [x] **Steel Cans**
- [x] **Glass Bottles and Jars**
- [x] **Plastic PET #1 (drink bottles and food jars)**
- [x] **Plastic HDPE #2 (milk jugs, detergent jugs, shampoo bottles)**
- [x] **Plastic PP #5 (dairy tubs, some bottles)**
- [ ] Plastic - Bulky Rigid
- [x] **Paper - Cardboard**
- [x] **Paper - Newspaper**
- [x] **Paper - Office Paper**
- [x] **Paper - Other Mixed Paper (junk mail, paperboard, paper bags)**
- [ ] Paper - Cartons (juice and soup cartons)
- [ ] Other

Which material recovery facility (MRF) does your community use? (?)

WM: Waste Management (Morrisville)

A MRF is the plant that separates commingled recyclables into marketable commodities (paper, plastic, metals, glass).
If you don't know this answer, please ask your hauler or recycling transfer station.

Do you have a formal contract with the MRF?

(●) **Yes** ( ) No

What month/year does it expire?

04/2026

Do you know your inbound contamination level at your MRF?

(●) **Yes** ( ) No

Inbound contamination is the amount of non-recyclable materials in commingled loads delivered to the MRF.

What is the inbound contamination percentage?

12%

Separated Recycling Tonnage

This section is for reporting recyclables that are collected separately OR commingled materials that are broken out by your MRF. Do not include tons for anything that is covered in Commingled Recycling Tonnage above.

	Curbside Tons (?)	Drop-off Tons (?)	Other Tons (?)	Total Tons
Glass Bottles and Jars				0.00
Plastic – PET #1				0.00
Plastic – HDPE #2				0.00
Plastic – PP #5				0.00
Plastic – Mixed (all bottles, tubs, jugs, and jars)				0.00
Metal – Aluminum Cans				0.00
Metal – Steel Cans				0.00
Paper – Cardboard (OCC)				0.00
Paper – Newsprint (ONP)				0.00
Paper – Office Paper				0.00
Paper – Mixed Paper				0.00
Paper - Cartons				0.00

Other Recycling Tonnage

Do NOT report yard waste, tires, HHW, used oil, batteries or other specialty wastes. These are covered later in the report.

	Tons	Total Tons
Metal - White Goods/Appliances		0.00
Metal - Scrap Metal		0.00
Wood - Pallets		0.00
Wood - Other Clean Wood (not yard waste)		0.00
Electronics - Televisions	179.52	179.52
Electronics - Computer Equipment	2.91	2.91
Electronics - Other		0.00
Food Waste	74.23	74.23
Textiles/Clothing		0.00

Construction and Demolition (C&D) Recycling (?)	Tons	Total Tons
(specify C&D recycled material)		0.00
(specify C&D recycled material)		0.00
(specify C&D recycled material)		0.00

Other Recycled Materials (?)	Tons	Total Tons
(specify other recycled material)		0.00
(specify other recycled material)		0.00
(specify other recycled material)		0.00

Reminder: Do NOT report yard waste, tires, HHW, used oil, batteries or other specialty wastes. These are covered later in the report.

Recycling Totals

	Curbside	Drop-off	Other	Total
Total Tons	9,876.96	861.93	256.66	10,995.55

3. Specialty Wastes

Enter data below for specialty waste services provided to the public. Please do not include data on materials that were accepted and then disposed of in a landfill. Do not include materials generated exclusively by government operations (e.g. motorfleet services).

Specialty Waste Collections

Specialty wastes are materials collected at convenience centers, transfer stations, landfills, etc. Do not include materials collected at household hazardous waste facilities or events. Please report all totals in pounds. Conversion factors are provided below the table.

	Collected?	# of Sites	Pounds (?)
Used Motor Oil	☑ Yes	1	6,200.00
Used Oil Filters	☐ Yes		
Used Antifreeze	☐ Yes		
Batteries, Lead Acid (Auto)	☐ Yes		
Batteries, Dry Cell (Household)	☐ Yes		
Fluorescent Bulbs/Lights Containing Mercury	☐ Yes		
Propane Tanks	☐ Yes		
Used Cooking Oil / Waste Vegetable Oil	☑ Yes	1	16,567.50
Pesticide Containers (empty containers, not pesticides themselves)	☐ Yes		
NCDA&CS Pesticide Disposal Assistance Program (for management of pesticides, not containers)	☐ Yes		
Latex Paint (do not include paint collected at HHW event or by a paint exchange program)	☐ Yes		

Other specialty waste (?)	Collected?	# of Sites	Pounds
	☐ Yes		

Specialty waste conversion factors:
Used motor oil gallon = 7.4 pounds
Used motor oil filter (uncrushed) drum = 175 pounds
Used antifreeze gallon = 8.42 pounds
Lead acid battery = 36 pounds
Fluorescent bulb = 0.65 pounds
Propane tank = 18 pounds
Used cooking oil gallon = 7.5 pounds
Empty pesticide container = 0.75 pounds
Latex paint gallon = 11.5 pounds

Household Hazardous Waste (HHW)

Did your local government operate a permanent HHW collection facility or temporary HHW collection event?

○ Yes ◉ **No**

4. Yard Waste

Yard Waste Management

Yard waste may not be disposed in sanitary landfills, incinerators, or in unpermitted sites and it is illegal to burn. Do not include information on food waste or non-vegetative materials in this section.

4.1 - Does your local government operate a program to collect and/or manage yard waste (brush, limbs, leaves)?

(●) **Yes** ( ) No

Please indicate how yard waste is collected:

- [x] **Collected curbside**
- [x] **Collected at convenience center**
- [ ] Received at yard waste, compost, or land clearing and inert debris (LCID) facility

Who collected the yard waste for your local government's yard waste program?

(●) **Local government employees**
( ) Private contractor*
( ) Franchised hauler**
( ) Other (please specify)

*A PRIVATE CONTRACTOR has a formal agreement with a local government for the provision of specified solid waste services at a certain price for a certain length of time and is the exclusive service provider.
**A FRANCHISED HAULER has a formal agreement with a local government for the provision of services awarded through competitive procurement. In contrast to contracted collection, local governments do not pay franchised haulers for providing services.

Did a storm event significantly impact the amount of yard waste your government managed during FY 23-24?

( ) Yes (●) **No**

Yard Waste Tonnage

Please report the tons of yard waste collected and/or managed by your local government.
For conversion purposes, one cubic yard is equal to 0.2 tons (400 lbs) of yard waste.

Destination	Tons	Receiving Facility Name and Location
End user (to farmer or home-owner)		
Your local government's mulch or compost facility		
Another local government's mulch or compost facility		
Private mulch or compost facility	17,787.85	Brooks Contractor, McGill Environmental (Merry Oaks)
Land clearing and inert debris (LCID) landfill		
Energy / Fuel Use (e.g. boiler fuel market)		
Total	17,787.85	

5. Solid Waste

Please complete the following questions about your government's municipal solid waste (garbage) collection system.

Curbside Solid Waste Collection

5.1 - Did your government operate or contract for curbside solid waste collection?

(●) **Yes** ( ) No

Who collected the curbside solid waste?

- [x] **Local government employees**
- [ ] Private contractor*
- [ ] Franchised hauler**
- [ ] Other (please specify)

*A PRIVATE CONTRACTOR has a formal agreement with a local government for the provision of specified solid waste services at a certain price for a certain length of time and is the exclusive service provider.
**A FRANCHISED HAULER has a formal agreement with a local government for the provision of services awarded through competitive procurement. In contrast to contracted collection, local governments do not pay franchised haulers for providing services.

What type of collection method is used? (?)

- [x] **Fully-Automated**
- [x] **Semi-Automated**
- [ ] Manual

What is the standard collection frequency?

- [x] **Weekly**
- [ ] Two times per week
- [ ] Other (please specify)

What service points are used for single-family households?

- [x] **Curbside**
- [x] **Back yard/Back door**

What type of collection container is used?

- [x] **Government-provided carts**
- [x] **Resident-provided container**
- [ ] Bags

What sector(s) of your community was served by the curbside solid waste collection program?

[x] **Residential** [x] **Commercial** [ ] Industrial

Number of households that receive curbside solid waste collection:

55,000

Number of commercial and industrial accounts that receive curbside solid waste collection:

393

Do you offer curbside bulky waste collection services? (?)

(●) **Yes** ( ) No

Did you offer white goods collection services? (?)

(●) **Yes** ( ) No

For municipalities: Were white goods delivered to the County for recycling/processing?

(●) **Yes** ( ) No

If yes, please do not report white goods tons in 2B. Recycling Tons. The tonnage will be reported by the County.

Commercial Solid Waste Collection

5.2 - Does your government provide a separate solid waste collection service (e.g., dumpster service) for customers such as businesses, schools, multifamily properties, etc.?

( ) Yes (●) **No**

Solid Waste Convenience Sites

5.3 - Does your government operate or contract for convenience sites for solid waste collection? (?)

(●) **Yes** ( ) No

Who hauls the solid waste from the convenience sites?

- [ ] Local government employees
- [x] **Private contractor**
- [ ] Other (please specify)

Name of private contractor

GFL "Green For Life"

How many solid waste convenience sites do you operate?

1

How many solid waste convenience sites are staffed?

(●) **All** ( ) None ( ) Some

6. Education

Education

6.1 - Did your local government have an education program to inform residents about solid waste management and / or recycling?

(●) **Yes** ( ) No

Do you utilize any of the DEACS-provided templates (Recycle Right NC)?

Available at https://deq.nc.gov/conservation/recycling/general-recycling-information/customized-outreach-materials

( ) Yes (●) **No**

Do you use any of the following recycling education that provides direct, personalized feedback?

- [x] **Cart Tagging**
- [x] **Collection App**
- [ ] Other (please describe):

Please estimate your annual budget for solid waste and/or recycling education:

$ 15,000.00

Does your community produce solid waste and/or recycling education materials in languages besides English?

( ) Yes (●) **No**

7. Budget

Solid Waste and Recycling Budgets

According to G.S. 130A-309.08, local governments are required to conduct full cost accounting annually and inform users of such costs.

7.1 - Did your local government operate an Enterprise Fund for solid waste services in FY23-24? (?)

( ) Yes (●) **No**

7.2 - How does your local government use Solid Waste Disposal Tax distributions?

Funds are used to offset the cost of Solid Waste program

All local governments that provide solid waste services receive quarterly NC Solid Waste Disposal Tax Distributions from the Department of Revenue. According to G.S. 105-187.63 these funds must be used by a city or county solely for solid waste management programs and services.

7.3 - What other funding sources does your local government use?

- [ ] Tipping fees
- [ ] Property taxes / general fund
- [x] **Per household charges**
- [ ] Pay-as-you-throw (all residents are charged a fee for garbage disposal based on weight or volume)
- [ ] Sale of recyclables
- [ ] Grants
- [ ] Tire tax
- [ ] White Goods tax

Household Fees

If applicable, please provide your FY23-24 annual household fees. Example:
Solid Waste: $ **75.00** per **household.**
Do not include one-time service fees (e.g., $15 per bulky pickup).

Fee Type	Annual Fee (?)		Unit (?)
Solid Waste	$ 276.00	per	Household
Recycling	$	per	
Yard Waste	$	per	
Bulky Waste	$	per	
Availability Fee	$	per	
Combined Fee	$	per	
Total Annual Fee	$ 276.00		

Solid Waste and Recycling Contracts

If your local government contracts for solid waste or recycling services, please provide the contract amounts.

	Annual Contract Amount	Month/Year of Contract Expiration
Solid Waste Services Contract	$	
Recycling Contract	$	
OR: Combined Contract (solid waste & recycling)	$	

Full Cost Accounting

7.4 - What was your government's total combined annual budget for all solid waste and recycling services in FY 23-24?

$

According to G.S. 130A-309.08, local governments are required to conduct full cost accounting annually and inform users of such costs.

Please complete the table to the best of your ability to display the full costs of collecting municipal solid waste, recycling, and yard waste. If you only have a total cost for a program, please report it in the collection cost column.

	# of Households/ Customers Served	Tons Collected	Collection Cost (?)	Disposal Cost (?)	Total Cost	Cost/Ton Managed	Cost Per Household/ Customer
Municipal Solid Waste*	55,000	37,418.31	5,464,983.39	1,475,932.61	6,940,916.00	185.50	126.20
Recycling Program**	55,000	10,995.55	3,218,198.71	515,398.29	3,733,597.00	339.56	67.88
Yard Waste Program	55,000	17,787.85	2,774,896.14	180,630.86	2,955,527.00	166.15	53.74

** Municipal Solid Waste includes materials collected and sent for eventual disposal in a Municipal Solid Waste or Construction and Demolition Landfill.*
*** Recycling Program includes materials collected by public recycling programs and reported in Part 2B. Recycling Tons. Do not include Specialty Waste Collections.*

Totals	N/A	66,202	11,458,078.24	2,171,961.76	13,630,040.00	205.89	N/A

Facility Budgets

If your government operates a landfill, transfer station, yard waste/compost facility or recycling facility, please provide total budget for facility operations. If budgets for different facilities are combined, please attempt to allocate costs proportionately.

Landfill Budget:

$

Transfer Station Budget:

$

Yard Waste / Compost Facility Budget:

$

Recycling Facility Budget:

$

8. County Programs

Are you a county or municipality? *

County **Municipality**

Only counties are required to complete Part 8 about White Goods, Scrap Tires, and Abandoned Manufactured Homes. If you are a municipality, you will skip to Part 9. Disaster Planning when you click 'Next'.

9. Disaster Planning

Disaster Planning and Preparedness

Does your local government have a plan in place for management of disaster debris?

Yes No

Is it a stand-alone plan or in conjunction with other local government agencies?

Stand-alone

In conjunction

Has the plan been reviewed by N.C. Emergency Management or FEMA to ensure it meets the basic requirements for public assistance reimbursement in a declared disaster event?

Yes **No**

Please list the contact information of the person(s) in charge of the disaster debris management program for your local government.

Reviewed Disaster Debris Sites

Please list the temporary disaster debris staging sites in your county or municipality which have been reviewed for conflicts with the Natural Heritage Program (NHP) and the State Historic Preservation Office (SHPO) through coordination with the Solid Waste Section. Please note that the vetting of a site prior to a disaster is advantageous to local governments because a staging site which is found to have impacted federal or state resources after a disaster may cause difficulty for local governments when attempting to obtain FEMA reimbursement. Please list all sites.

	Disaster Site #	Site Name
Site 1	DS92-021	Jack Smith Park
Site 2	DS92-022	Brooks Park
Site 3	DS92-007	Cary, TS
Site 4	DS92-010	Cary, Dixon Ave.
Site 5	DS92-011	Cary, Penny Road

Does your plan address the management of:

Check all that apply.

- [ ] Household Hazardous Waste
- [ ] Mass animal mortality
- [ ] Abandoned vessels
- [ ] White goods

Does your plan include coordination with NC DOT on clearing roads and waste in the right of way?

Yes No

Comments

Use this section to elaborate on any information provided in your report as needed.
Please also note any major changes to your recycling or solid waste program since last year.

Editor's Comment DK: Part 2B white goods tons removed because sent to county (376.23). Corrected report to account for multifamily recycling program. Corrected motor oils pounds listed. Updated full cost accounting table tons to match Part 2B and the household fees to reflect an annual fee.
