Local Government Annual Solid Waste and Materials Management Report

Completion and submission of this online report will fulfill the annual reporting mandate to the state as required by G.S. 130A-309.09A.

NORTH CAROLINA Department of Environmental Quality

Instructions

Requirement

- Each North Carolina county and municipality is required to complete this report annually. Completion and submission of this online report will fulfill the annual reporting mandate to the state as required by G.S. 130A-309.09A.
- Failure to complete and submit this report could result in the local government being excluded from distributions of Solid Waste Disposal Tax Proceeds and other Department of Environmental Quality grants.
- This report must be completed no later than September 1, 2022.

Instructions

- This report is web-based and does not require any additional programs to use.
- To get started, please click 'Next' at the bottom of this page.
- The report allows you click through pages using 'Next' and 'Previous' at the bottom of each page. Or you can toggle between Parts using the tabs at the top.
- Complete the report by entering responses in the appropriate fields. Many questions with a 'yes' response will expand to ask follow-up questions.
- You can save your progress on the report by clicking 'Save a Draft' at the bottom of any page. The webpage will prompt you for your email address. A link will be mailed to the email address you provide. Click the link to continue entering data into the report.
  Please note: the report is not recoverable if the email address is incorrect.
- When complete, click the 'Submit' button on the last page. An electronic copy of the report will be automatically forwarded to the Division of Environmental Assistance and Customer Service (DEACS).
- After pressing 'Submit', you can Download or Print a copy of the report for your files.
- DEACS reviews each report and may contact you with questions or clarifications. Once the review process is complete, you will receive an email notification with the final approved version of the report attached as a pdf. Please note the final report may be modified from your original submittal.

Helpful Information

- **Parts of this report:**
  - **Part I.** Government Facility Waste Reduction Programs
  - **Part II. A.** Public Waste Reduction and Recycling Programs
  - **Part II. B.** Recycling Tonnages Table
  - **Part III.** Specialty Waste Collections and Household Hazardous Waste (HHW)
  - **Part IV.** Yard Waste, Mulching, and Composting Management
  - **Part V.** Solid Waste Services
  - **Part VI.** Education
  - **Part VII.** Full Cost Accounting and Solid Waste Facility Budgets
  - **Part VIII. A.** Counties - Mandated Programs - White Goods
  - **Part VIII. B.** Counties - Mandated Programs - Scrap Tires
  - **Part VIII. C.** Counties - Mandated Programs - AMH
  - **Part IX.** Disaster Preparedness
  - **Part X.** Comments

- View previous annual reports from the past five years.
- See Frequently Asked Questions (FAQs) about the new online report.
- You may download a blank pdf of the report to use for gathering data. However, you must complete the online report as your official submission.
- If you need assistance completing this report, please feel free to contact one of the following DEACS staff members:
  - Carol Abken: carol.abken@ncdenr.gov or (919) 707-8138
  - Sandy Skolochenko: sandy.skolochenko@ncdenr.gov or (919) 707-8147

General

General Information

Did your local government have a Recycling Coordinator or similar position for FY21-22?
○ Yes ◉ No

Did your local government have a Solid Waste Director or similar position for FY21-22?
◉ Yes ○ No

Name
Jesse D. Troublefield Jr.

Title
Solid Waste Division Manager

Phone Number
919-462-2069

Email
jesse.troublefield@townofcary.org

Did your local government have dedicated or part-time Solid Waste Enforcement Staff for FY21-22?
◉ Yes ○ No

How many FTEs are dedicated to solid waste enforcement?
Please provide the approximate full time equivalent (FTE) staff where 1.0 is a full-time employee.
1.0

Primary Enforcement Staff Contact: Name
Dennis Stanley

Title
Facilities Coordinator

Email
dennis.stanley@townofcary.org

Did your local government have solid waste ordinances in place addressing any of the following during FY 21-22?
(Check all that apply)

- ☐ Disposal Bans
- ☐ Littering
- ☐ Other
- ☑ Illegal Dumping
- ☐ Construction & Demolition

Did your local government manage, provide or contract for any solid waste services in FY 21-22 (e.g., collection, disposal, recycling, mulching, composting)? *
◉ Yes ○ No

Note: If you select "No", then the form will automatically hide non-relevant pages and you can proceed to Part IX.

Part I.

Government Facility Waste Reduction Programs

Did your local government have a recycling program for public government buildings in FY 21-22?
◉ Yes ○ No

Did your local government have a program or policy encouraging or requiring the purchase of products with recycled content in FY 21-22?
○ Yes ◉ No

Did your local government have a program to collect and recycle spent fluorescent lights generated from public buildings and facilities operated by your government in FY 21-22?
◉ Yes ○ No

Public Waste Reduction and Recycling Programs

SOURCE REDUCTION / REUSE

Did your local government have a backyard composting program?

- (•) Yes
- ( ) No

Please check all backyard composting activities that apply:

- [x] Education
- [x] Demonstration site(s)
- [x] Bin distribution/sales

Number of Bins distributed?

233

Did your local government operate a program to promote source reduction efforts ?

- (•) Yes
- ( ) No

Please check all source reduction programs that apply:

- [x] Junk Mail Reduction
- [x] Food Waste Reduction
- [ ] Other
- [x] Single Use Plastics Reduction
- [x] Promoting Reuse and Donation

Did your local government offer a waste exchange or reuse program?

- ( ) Yes
- (•) No

PUBLIC RECYCLING SERVICES

Which of the following best describes your recycling program for the period July 1, 2021 through June 30, 2022? Choose ONE option that best applies. *

- (•) My local government DID operate or contract for a recycling program.
- ( ) My local government DID NOT operate or contract for recycling program BUT DID participate in a recycling program sponsored by another local government. (Please identify the public agency/organization responsible for its operation.)
- ( ) My local government DID NOT operate, contract or participate in a recycling program.

CURBSIDE RECYCLING PROGRAM

Did your government operate or contract for a Curbside Recycling Program?

- (•) Yes
- ( ) No

Who collected the recyclable materials for your local government's curbside recycling program?

- (•) Local government employees
- ( ) Private contractor*
- ( ) Franchised hauler**
- ( ) Other (please specify)

*A PRIVATE CONTRACTOR has a formal agreement with a local government for the provision of specified solid waste services at a certain price for a certain length of time and is the exclusive service provider. **A FRANCHISED HAULER has a formal agreement with a local government for the provision of services awarded through competitive procurement. In contrast to contracted collection, local governments do not pay franchised haulers for providing services.

Total number of households in your jurisdiction?

54,410

Number of households eligible to participate in the curbside recycling program:

54,410

Provide the number of households that participate in the curbside recycling program (estimate if necessary):

54,200

What sector(s) of your community was served by the curbside recycling program?

- [x] Residential
- [x] Commercial
- [ ] Industrial

Please indicate the number of commercial and industrial accounts served:

387

How frequently were the curbside recyclables collected?

- ( ) Once a week
- (•) Every other week / biweekly
- ( ) Other

Please describe the collection containers used:

- [x] Bins
- [ ] Blue bags
- [ ] Multi-bin system
- [x] Roll-out carts

Please describe the method of recycling collection:

- ○ Curb-sort (collector separates material as collected)
- ○ Dual / two stream
- ◉ Single stream / commingled
- ○ Don't know/other (please specify)

Do residents sign up for curbside recycling service or are they automatically included?

○ Sign up ◉ Automatically included

DROP-OFF RECYCLING PROGRAM

Did your government operate or contract for a Drop-off Recycling Program?

◉ Yes ○ No

Who collected the recyclable materials for your local government's drop-off recycling program?

- ○ Local government employees
- ◉ Private contractor
- ○ Other (please specify)

Name of private contractor

GFL "Green For Life"

Please describe the method / style of recyclable materials handling for your drop-off recycling program:

- ○ Source-separated (citizens separate materials by type)
- ○ Dual / two stream (paper separated from cans/bottles)
- ◉ Single stream / commingled
- ○ Don't know / other (please specify)

Please estimate the number of households served by your drop-off recycling program.

54,410

What sector(s) of your community are served by the drop-off recycling program?

☑ Residential ☐ Commercial ☐ Industrial

How many drop-off recycling locations did you provide?

1

How many of these locations were staffed with attendants?

◉ All ○ None ○ Some

ELECTRONICS RECYCLING PROGRAM

Did your community operate or contract for an electronics recycling program in FY 21-22?

◉ Yes ○ No

Please indicate the type of electronics recycling program your government offers.

- ☑ Permanent - Curbside Collection
- ☐ Scheduled Collection Day or Event
- ☑ Permanent - Drop-Off
- ☐ Part of HHW Program

Is curbside collection of electronics:

◉ By appointment ○ Unscheduled

How many collection sites accept electronics for recycling?

Number of Sites:

1

Did your electronics recycling program collect or accept televisions from:

(Check all that apply)

☑ Residences ☐ Businesses

Did your electronics recycling program collect or accept computer equipment from:

(Check all that apply)

☑ Residences ☐ Businesses

Annually, DEQ distributes funds to eligible units of local government. If your unit of local government received a distribution from the Electronics Management Fund in February 2022, please provide the following information:

Electronics Management Fund balance as of July 1, 2021:

$

Electronics Management Funds received from DEQ during FY 21-22 (Feb 2022 distribution):

$

Electronics Management Funds spent during FY 21-22:

$

Electronics Management Fund balance as of June 30, 2022:

$

Total spent on electronics recycling program in FY 21-22 (Electronics Management Funds plus additional funds):

$

Explain how Electronics Management Funds were used during FY 21-22 (list items purchased if applicable):

While the Town does receive the funds directly for the State, we do receive funds via Wake County, because we operate our own program. These funds are used for the transportation and processing of electronics through American Greenz. Cost while exceed any funds we received

Name of electronics recycler(s) used during FY 21-22:

American Greenz Inc.

Does the electronics recycler(s) used have either the e-Steward or R2 certification?

(•) Yes ( ) No

OTHER PUBLIC RECYCLING PROGRAMS

List only programs operated or contracted for by the local government. The tonnage of any materials collected by the following programs should be listed in the "Other" column in the Recycling Tonnages Chart in Part II. B.

Did your local government provide recycling services at multifamily properties? (?)

( ) Yes (•) No

Did your local government operate a recycling program to serve commercial and industrial customers of your community in a manner other than through your curbside or drop-off recycling programs?

( ) Yes (•) No

Does your local government provide recycling services to Alcoholic Beverage Commission permit holders?

(•) Yes ( ) No

Please check the description of services that best fits:

(•) On-site collection services provided

( ) Public drop-off recycling sites available for ABC On Premises Permit holders to use

Please estimate the # of ABC accounts served:

8

Does your local government operate a program to recycle Construction and Demolition materials?

( ) Yes (•) No

Please identify all Away From Home / Recycling On The Go programs or services operated by your government during FY 21-22.

(check all that apply and if possible indicate tonnages in Part II B. in "Other" column)

- [x] Public Parks Recycling Program
- [x] Pedestrian Recycling Program
- [x] Athletic Field /Venue Recycling Program
- [x] Recycling Service for Special Events / Festivals

Please identify all "Other" programs or services operated by your government during FY 21-22.

(check all that apply and if possible indicate tonnages in Part II B. in "Other" column)

- [ ] Public School Recycling Program
- [x] Scheduled Collection Drives (e.g. confidential document shredding event held quarterly, once a year, etc.)
- [ ] Lend-a-Bin Program where local government provides recycling containers to community organizations for use at events
- [x] Food Waste Drop-Off
- [ ] Food Waste Curbside Collection
- [ ] Oyster Shell Recycling Program
- [ ] Other Programs (please specify)

You checked Food Waste (drop-off or curbside) above; Is the program:

- [ ] Permanent
- [x] Pilot
- [ ] Other *(If you have both drop-off and curbside, differentiate here if needed)

Please indicate where you take your food waste for processing.

CompostNow picks up the food waste for our drop-off site and hauls to Brooks Contractor in Goldston, NC.

Programs to manage Specialty Wastes are addressed in Part III, please do not include Specialty Waste programs above.

Part II. B.

RECYCLING TONNAGES FROM PUBLIC PROGRAMS

Enter data below for ALL recycling programs operated or contracted for by your local government. Provide tonnages (or estimates) for each material collected for the period July 1, 2021 through June 30, 2022.

If you need to explain any of the tonnage recorded below, please use the Comments box in Part X.

*** If your material is collected commingled but you have a detailed breakdown from your MRF and want to report individual material tonnages, click here**

- [ ] Yes, I collect commingled but want to report separate

Commingled Recycling Tonnage

Commingled recycling, also known as single-stream recycling or mixed recycling, is a system in which some or all household recyclables (plastic, metal, paper, cardboard, glass) are collected together.

	Curbside Tons (?)	Drop-off Tons (?)	Other Tons (?)	Total Tons
Commingled tons	10,841.00	447.00		11,288.00

If you reported any tons above, which recyclables are included in that tonnage?

- [x] Aluminum Cans
- [x] Steel Cans
- [x] Glass Bottles and Jars
- [x] Plastic PET #1 (drink bottles and food jars)
- [x] Plastic HDPE #2 (milk jugs, detergent jugs, shampoo bottles)
- [x] Plastic PP #5 (dairy tubs, some bottles)
- [ ] Plastic - Bulky Rigid
- [ ] Plastic - Other
- [x] Paper - Cardboard
- [x] Paper - Newspaper
- [x] Paper - Office Paper
- [x] Paper - Other Mixed Paper (junk mail, paperboard, paper bags)
- [ ] Paper - Cartons (juice and soup cartons)
- [ ] Other

Which material recovery facility (MRF) does your community use?

WM Recycle America

A MRF is the plant that separates commingled recyclables into marketable commodities (paper, plastic, metals, glass)

Do you have a formal contract with the MRF?

(•) Yes ( ) No

What month/year does it expire?

March 31, 2023

Do you know your inbound contamination level at your MRF?

(•) Yes ( ) No

Inbound contamination is the amount of non-recyclable materials in commingled loads delivered to the MRF.

What is the inbound contamination percentage?

10.59%

Separated Recycling Tonnage

This section is for reporting recyclables that are not mixed together (source separated) OR commingled materials that are broken out by your MRF. Do not include tons for anything that is covered in Commingled Recycling Tonnage above.

	Curbside Tons (?)	Drop-off Tons (?)	Other Tons (?)	Total Tons
Glass Bottles and Jars				0.00
Plastic – PET #1				0.00
Plastic – HDPE #2				0.00
Plastic – PP #5				0.00
Plastic – Mixed (all bottles, tubs, jugs, and jars)				0.00
Metal – Aluminum Cans				0.00
Metal – Steel Cans				0.00
Paper – Cardboard (OCC)				0.00
Paper – Newsprint (ONP)				0.00
Paper – Office Paper				0.00
Paper – Mixed Paper				0.00
Paper - Cartons				0.00

Other Recycling Tonnage

Do NOT report yard waste, tires, HHW, used oil, batteries or other specialty wastes. These are covered later in the report.

	Tons	Total Tons
Metal - White Goods/Appliances	351.24	351.24
Metal - Scrap Metal		0.00
Wood - Pallets		0.00
Wood - Other Clean Wood (not yard waste)		0.00
Food Waste	13.94	13.94
Electronics - Televisions	192.44	192.44
Electronics - Computer Equipment	3.70	3.70
Electronics - Other		0.00
Textiles/Clothing		0.00

	Specify Material	Tons	Total Tons
Construction and Demolition Recycling (please specify what this includes)			0.00
Other 1 (please specify)			0.00
Other 2 (please specify)			0.00
Other 3 (please specify)			0.00

Recycling Totals

	Curbside	Drop-off	Other	Total
Total Tons	10,841.00	447.00	561.32	11,849.32

Part III.

RECYCLING TONNAGE AS A RESULT OF POLICY OR ORDINANCE: complete this section for materials that were recycled as a result of local government ordinances or policies but that were NOT collected or managed directly by your local government recycling program. E.g. A cardboard disposal ban results in private cardboard recycling (and you have a way to track the tons collected).

Material Type	Tons Diverted	Describe the mechanism that caused these materials to be recovered and data collection method

Specialty Waste Collections

Enter data below for specialty waste services provided to the public. Please do not include data on materials that were accepted and then disposed of in a landfill. Do not include materials generated exclusively by government operations (e.g. motorfleet services).

Specialty Wastes

Specialty wastes are materials collected at convenience centers, transfer stations, landfills, etc. Do not include materials collected at household hazardous waste facilities or events. Please report all totals in pounds. Conversion factors are provided below the table.

	Collected?	# of Sites	Pounds
Used Motor Oil	☑ Yes		7,130.70
Used Oil Filters	☐ Yes		
Used Antifreeze	☐ Yes		
Batteries, Lead Acid (Auto)	☐ Yes		
Batteries, Dry Cell (Household)	☐ Yes		
Fluorescent Bulbs/Lights Containing Mercury	☐ Yes		

Propane Tanks	☐ Yes	
Used Cooking Oil / Waste Vegetable Oil	☑ Yes	14,212.50
Pesticide Containers (NCDA Program, not pesticides themselves)	☐ Yes	
NCDA&CS Pesticide Disposal Assistance Program (for management of pesticides, not containers)	☐ Yes	
Latex Paint (do not include paint collected at HHW event or by a paint exchange program)	☐ Yes	

Other specialty waste	Collected?	# of Sites	Pounds
	☐ Yes		

Specialty waste conversion factors:
Used motor oil gallon = 7.4 pounds
Used motor oil filter (uncrushed) drum = 175 pounds
Used antifreeze gallon = 8.42 pounds
Lead acid battery = 36 pounds
Fluorescent bulb = 0.65 pounds
Propane tank = 18 pounds
Used cooking oil gallon = 7.5 pounds
Empty pesticide container = 0.75 pounds
Latex paint gallon = 11.5 pounds

Household Hazardous Waste (HHW) Collection Program

Did your local government operate a permanent HHW collection facility or temporary collection event?

○ Yes ◉ No

Part IV.

Yard Waste, Mulching and Composting Management

Yard waste may not be disposed in sanitary landfills, incinerators, or in unpermitted sites and it is illegal to burn. Do not include information on food waste or non-vegetative materials in this section.

Does your local government operate a yard waste program?

◉ Yes ○ No

Please indicate how yard waste is managed:

(Check all that apply)

☑ Collected curbside
☑ Collected at convenience center
☐ Received at yard waste, compost, or LCID facility

Who collected the yard waste for your local government's yard waste program?

◉ Local government employees
○ Private contractor*
○ Franchised hauler**
○ Other (please specify)

*A PRIVATE CONTRACTOR has a formal agreement with a local government for the provision of specified solid waste services at a certain price for a certain length of time and is the exclusive service provider.**A FRANCHISED HAULER has a formal agreement with a local government for the provision of services awarded through competitive procurement. In contrast to contracted collection, local governments do not pay franchised haulers for providing services.

Did a storm event significantly impact the amount of yard waste your government managed during FY 21-22?

○ Yes ◉ No

Materials Managed by Yard Waste Program

What quantities of materials were managed by your yard waste program? Provide information in TONS of organic material (yard waste, brush, limbs, leaves, etc.) managed.
For conversion purposes, one cubic yard is equal to 0.2 tons (400 lbs) of yard waste.

Destination	Tons	Receiving Facility Name and Location
End user (to farmer or home-owner)		
Your local government's mulch or compost facility		
Other public mulch or compost facility		

Private mulch or compost facility	21,315	Brooks Contractor, McGill Environmental (Merry Oaks)
Land clearing and inert debris landfill (LCID)		
Energy / Fuel Use (e.g. boiler fuel market)		
Total	21,315	

Part V.

Solid Waste Collection Services

Please complete the following tables and questions about your government's solid waste (garbage) collection system.

Who Collects Solid Waste?

Please make a selection from the drop down choices below.

Sector	Primary	Secondary (if applicable)
Residential	Local government employees	Local government not involved in provision of service
Commercial	Local government not involved in provision of service	Local government employees
Industrial	Local government not involved in provision of service	Local government not involved in provision of service

How is Solid Waste Collected?

Please make a selection from the drop down choices below.

Sector	Primary	Secondary (if applicable)
Residential	Once a week at household	As needed or by request
Commercial	Other	As needed or by request
Industrial	Other	Other

Did your local government provide residential waste collection at single-family households in your jurisdiction?

(•) Yes ( ) No

What type of collection method is used?

[x] Fully Automated [x] Semi-Automated
[ ] Manual [ ] Don't know

What is the standard collection frequency?

[x] Weekly [ ] Two times per week [ ] Other

What is the typical service point for single family household waste?

[x] Curbside [ ] Back yard/Back door

What type of collection container is used?

[x] Government-provided carts [ ] Resident-provider container [ ] Bags

Do you offer bulky waste collection services?

(•) Yes ( ) No

For municipalities - did your government collect white goods at the curb?

(•) Yes ( ) No ( ) N/A, I am a county

Were white goods delivered to the county for recycling/processing?

(•) Yes ( ) No

Part VI.

Education

Did your local government have an education program to inform residents specifically about solid waste management and / or recycling issues / activities?

◉ Yes ○ No

Do you utilize any of the DEACS-provided templates (Recycle Right NC)?

Available at https://deq.nc.gov/conservation/recycling/general-recycling-information/customized-outreach-materials

○ Yes ◉ No

Do you use any recycling educational enforcement strategies?

- [x] Cart tagging
- [x] Collection App
- [ ] Other (please describe):

Please estimate your annual budget for solid waste related education and outreach activities:

$ 14,500.00

Does your community produce recycling education and outreach materials in languages besides English?

○ Yes ◉ No

Part VII.

Full Cost Accounting

According to GS 130A-309.08, local governments are required to conduct full cost accounting annually and inform users of such costs.

Did your local government operate an Enterprise Fund for solid waste services in FY21-22? (?)

○ Yes ◉ No

Did your local government receive Solid Waste Disposal Tax distributions?

NC Solid Waste Disposal Tax proceeds are distributed to eligible local governments on a quarterly basis by the Department of Revenue. According to GS 105-187.63 these funds must be used by a city or county solely for solid waste management programs and services.

◉ Yes ○ No

How are your disposal tax distributions used?

Funds are used to offset the cost of Solid Waste and recycling program

What other funding sources does your local government use?

- [ ] Tipping fees
- [x] Per household charges
- [ ] Sale of recyclables
- [ ] Tire tax
- [x] Property taxes / general fund
- [ ] Volume/weight-based fees (e.g. PAYT)
- [x] Grants
- [ ] White Goods tax

Household Fees

If applicable, please provide your FY21-22 annual household fees. Example:
Solid Waste: $ **75.00** per **year** per **household**

Fee Type	Amount		Period		Unit
Solid Waste	$ 258.00	per	year	per	household / $21.50 per month per unit
Recycling	$	per	year	per	
Yard Waste	$	per	year	per	
Bulky Waste	$ 15.00	per	year	per	Bulky item fee is $15 per item per collected and $8 per addition item collected
Availability Fee	$	per	year	per	
Total (Combined) Fee	$ 258.00	per	year	per	household / $21.50 per month per unit; does not include bulky collections

Did your local government operate a Pay-As-You-Throw program for residential garbage during FY21-22? (a system where residents are charged a fee by weight or volume for the amount of trash they discard)

○ Yes ◉ No

Local Government Contracts

If your local government contracts for solid waste or recycling services, please provide the contract amounts.

	Annual Contract Amount	Month/Year of Contract Expiration

Solid Waste Services Contract	$
Recycling Contract	$
OR: Combined Contract (solid waste & recycling)	$

Collection Programs Costs

Please complete the table to the best of your ability to display the full costs of your local government's collection programs for municipal solid waste, recycling, and yard waste, including materials collected from convenience centers. If you only have a total cost for a program, please report it in the collection cost column.

	# of Households/ Customers Served	Tons Collected	Collection Cost (?)	Disposal Cost (?)	Total Cost	Cost/Ton Managed	Cost Per Household/ Customer
Municipal Solid Waste*	54,410	38,123	4,475,786.00	1,249,108.00	5,724,894.00	150.17	105.22
Recycling Program**	54,410	11,836	2,769,563.00	354,444.00	3,124,007.00	263.94	57.42
Yard Waste Program	54,410	21,316	2,481,208.00	187,603.00	2,668,811.00	125.20	49.05

** Municipal Solid Waste includes materials collected and sent for eventual disposal in a Municipal Solid Waste or Construction and Demolition Landfill.*
*** Recycling Program includes materials collected by public recycling programs and reported in the Table in Part II. B. Do not include Specialty Waste Collections.*

Totals	N/A	71,275	9,726,557.00	1,791,155.00	11,517,712.00	161.60	N/A

Solid Waste Facility Budgets

What was your government's total combined annual budget for all solid waste and recycling services in FY 21-22?

$ 11,729,196.00

If your government operates a landfill, transfer station, yard waste/compost facility or recycling facility, please provide total budget for facility operations. If budgets for different facilities are combined, please attempt to allocate costs proportionately.

Landfill Budget:

$

Transfer Station Budget:

$

Yard Waste / Compost Facility Budget:

$

Recycling Facility Budget:

$

Part VIII. A.

Are you a county or municipality? *

○ County ◉ Municipality

Only counties are required to complete Part VIII. A, B, & C about White Goods, Scrap Tires, and Abandoned Manufactured Homes. If you are a municipality, you will skip to Part IX. when you click 'Next'.

Part IX.

Disaster Preparedness - Counties and Municipalities

Does your local government have a plan in place for management of disaster debris?

◉ Yes ○ No

Is it a stand-alone plan or in conjunction with other local government agencies?

◉ Stand-alone
○ In conjunction

Has the plan been reviewed by N.C. Emergency Management or FEMA to ensure it meets the basic requirements for public assistance reimbursement in a declared disaster event?

○ Yes ◉ No

Please list the contact information of the person(s) in charge of the disaster debris management program for your local government.

Name	Phone Number (?)	Email
Matt Flynn	919-469-4347	Matt.flynn@townofcary.org
Name	**Phone Number (?)**	**Email**
Jim Hallowes	919-319-4546	Jim.hollowes@townofcary.org
Name	**Phone Number (?)**	**Email**
Robbie Lippard	919-980-2130	Robbie.lippard@townofcary.org

Reviewed Disaster Debris Sites

Please list the temporary disaster debris staging sites in your county or municipality which have been reviewed for conflicts with the Natural Heritage Program (NHP) and the State Historic Preservation Office (SHPO) through coordination with the Solid Waste Section. Please note that the vetting of a site prior to a disaster is advantageous to local governments because a staging site which is found to have impacted federal or state resources after a disaster may cause difficulty for local governments when attempting to obtain FEMA reimbursement. Please list all sites.

	Disaster Site #	Site Name
Site 1	DS92-021	Jack Smith Park
Site 2	DS92-022	Brooks Park
Site 3	DS92-007	Town of Cary, TS
Site 4	DS92-010	Cary Dixon Ave.
Site 5	DS92-011	Town of Cary Penny Road

Does your plan address the management of:

Check all that apply.

- [ ] Household Hazardous Waste
- [ ] Abandoned vessels
- [ ] Mass animal mortality
- [ ] White goods

Does your plan include coordination with NC DOT on clearing roads and waste in the right of way?

(•) Yes ( ) No

Part X.

Comments

Use this section to elaborate on any information provided in your report as needed.

Please also note any major changes to your recycling or solid waste program since last year.
